Higher Education **19**: 511–512, 1990.

Title index

Academic staff
– age and productivity of 37
– research performance of 81
Academic success
– factors influencing (non-traditional students) 435
Age and scientific productivity 37
Assessment of quality in higher education 57
Australia, higher education in 147, 455

Chemical engineering, teaching of 323

Departmental reviews 195
Distance teaching universities, impact on conventional universities of 73

Economic impact of universities 481
Employment of graduates, in Greece 397
Engineering, chemical, teaching of 323
Environments, academic 169

Greece, higher education in 397

Higher education
– assessment of quality in 57
– governance in 147
– in Australia 455
– in Greece 397
– in Kenya 215
– in Nigeria 293
– in S. Africa 435
– in Scotland 481
– in USA 1
– independent learning in 307
– subject balance in 239

Impact, economic, of universities 481
Innovation, in teaching, student perceptions of 323
Instruction, implications of laboratory work for 473

Job placements and higher education in Greece 397

Kenya, University expansion in 215

Laboratory work, student performance in 473
Learning
– action, in management education 419
– approaches to 169
– impact of distance universities on in conventional universities 73
– independent 307
– innovations in 323
– open 259
– problem-based 123

Management education 419
Meetings, annual, in science faculties 195

National, integration, in Nigeria 293
Nigeria, higher education in 293
Non-completion rates, student 377, 385

Open learning 259

Performance Indicators, staff, of research 81
Physiology, student performance in lab work in 473
Placement, in higher education 341
Productivity, scientific and age 37

Research
– and teaching in different disciplines 351
– as a model for university teaching 21
– performance of staff in 81
Resource-based teaching 323

Science, faculties, annual meetings in 195
Scientific productivity and age 37
Scotland
– universities in 481
South Africa, higher education in 435
Staff, academic, intentions of to leave 281
Students
– non-completion rates of 377, 385
– non-traditional in S. Africa 435
– performance in laboratory work 473

– problems influencing academic success 435
Subjects
– balance between, in higher education 239
– differences between and teaching 351
Success, academic, factors influencing 435

Teaching
– and research in different disciplines 351
– evaluation of 169
– of chemical engineering 323
– research as a model for 21
– resource-based 323
Tests, of progress and learning 123

Universities
– comprehensive, in Australia 455
– demise of, in Australia 455
– distance-teaching 73
– economic impact of 481
– expansion of, in Kenya 215
USA higher education in 1

Higher Education **19**: 513, 1990.
